INDEX OF SUBJECTS • VOLUME 18

Subject entries for all material in the JOURNAL (except *Briefs from the Literature*) appear in this index. The page number in **bold face** indicates an original article, and the name of the author, in brackets, follows the subject entry. Entries from the JOURNAL departments are followed by the department in which the subject matter appears, i.e., Editorial, Current Comment, Correspondence, Miscellany and Abstract.

This is a subject index and one should, therefore, look for the subject word except for **BOOK NOTICES** and **BOOK REVIEWS** which are listed only under these headings. Matter pertaining to societies is indexed under the individual society name. For index to issues and authors see page 929.
